

October 7, 2020

Good afternoon,

Please note that the *Interim Order No. 10*, expected to be approved by the Minister of Transport this Friday, October 9th, will not remove the exemption for mask wearing when a person is 2 meters or less from another person and/or when they are occupants of the person's dwelling-house or other place that serves that purpose. Although we are still working actively on these changes, we did not meet internal timelines for inclusion. We are looking ahead to future Interim Orders, possibly *Interim Order No. 11* scheduled for approval on October 22, 2020, to incorporate this change. Timing will be confirmed next week during the calls with industry.

Thank you,

Aviation Security
